AD275

275kVA / 220kW
POWERED by Doosan

DIESEL GENERATING SET  400/230 V - 50 Hz

Standby : Continuous running at variable load for duration of an emergency. No overload is permitted on these ratings. In accordance with ISO 3046.

Prime : Continuous running at variable load for unlimited periods with 10% overload available for 1 hour in any 12 hour period. In accordance with ISO 8528, ISO 3046.

- High quality, reliable and complete power unit
- Compact design
- Easy start and maintenance possibility
- Every generating set is subject to a comprehensive test program which includes full load testing, checking and provision of all control and safety shut down functions testing
- Fully engineered with a wide range of options and accessories: Canopy, sound proof canopy and on-road trailer

- Heavy duty DOOSAN diesel engine
- Four stroke, water cooled, Turbocharged intercooled
- Direct injection fuel system
- Electric Governor system
- 12/24 V D.C. starter and charge alternator
- Replaceable fuel filter, oil filter and dry element air filter
- Cooling radiator and fan
- Starter battery (with lead acid) including Rack and Cables
- Flexible fuel connection hoses and manual oil sump drain valve
- Industrial capacity exhaust silencer and steel bellows
- Jacket water heater (at automatic models)
- Operation manuals and circuit diagram documents

## ALTERNATOR

### Design

- Brushless single bearing, revolving field

### Stator

- Single bearing, flexible disc

### Rotor

- Class H

### Insulation System

- 2/3 pitch

### Standard Temperature Rise

- 125 - 163°C Continuous

### Exciter Type

- Self Excited

### Phase Rotation

- A (U), B (V), C (W)

### Alternator Cooling

- Direct drive centrifugal blower fan

### AC Waveform Total Harmonic Distortion

- No load < 1.5%. Non distorting balanced linear load < 5%

### Telephone Influence Factor (TIF)

- <50 per NEMA MG1-22.43

### Telephone Harmonic Factor (THF)

- <2%
CONTROL SYSTEM

Control supervision and protection panel is mounted on the genset base frame. The control panel is equipped as follows:

1. Auto Mains Failure Control Panel
   Panel equipments:
   ✔ Control with AMF module
   ✔ Static battery charger
   ✔ Emergency stop push button

   a) Generating set control module DSE 7320 features:
      ✔ The module is used to monitor a mains supply and starts and stops a standby generating set
      ✔ Micro-processor based design
      ✔ Automatic control of mains and generator contactors
      ✔ Monitors engine performance and AC power output
      ✔ LED alarm indication
      ✔ Front panel configuration of timers and alarm trip points
      ✔ Easy push button control
      STOP/RESET - MANUAL –TEST- AUTO – MUTE ALARM – START

   b) Metering via LED display:
      ✔ Generator Volts (L-L / L-N)
      ✔ Engine oil pressure (PSI-Bar)
      ✔ Generator Ampere (L1,L2,L3)
      ✔ Engine temperature (°C & °F)
      ✔ Generator Frequency (Hz)
      ✔ Plant battery volts
      ✔ Engine hours run
      ✔ Mains Volts (Ph-Ph/Ph-N)
      ✔ Generator kVA, kWh
      ✔ Generator kW as % of rated kW setting
      ✔ Generator Cos (σ)

   c) Alarms:
      ✔ Over and Under Speed
      ✔ Low and High Battery Volt.
      ✔ Start and Stop Failure
      ✔ Charge fail
      ✔ Over Current
      ✔ Under / Over Generator Voltage
      ✔ Low Oil Pressure
      ✔ Emergency stop
      ✔ High engine temperature
      ✔ kW overload
      ✔ Unbalanced load
      ✔ Independent earth fault trip

   d) LED indications
      Four configurable LED’s like:
      ✔ Mains available
      ✔ Generator available
      ✔ Mains on load
      ✔ Generator on load

2. Power Outlet Terminal Board Mounted on the Genset Base Frame

OPTIONAL EQUIPMENTS

Diesel Engine
✔ Oil heater

Alternator
✔ 3/4 Pole Output Circuit Breaker
✔ Anti-condensation Heater

Panel
✔ Charge ammeter
✔ Transfer Switch 3Pole
✔ Transfer Switch 4 Pole
✔ Earth Fault .single set

Accessories
✔ Bulk fuel tank
✔ Automatic filling system
✔ Fuel-water separator filter
✔ Low fuel level alarm
✔ Residential silencer
✔ Enclosure or sound proof canopy
✔ Trailer
✔ Manual oil drain pump
✔ Tool kit for maintenance
The complete gen-set is mounted as whole on a heavy-duty fabricated, steel base frame.
Anti-vibration pads are fixed between the engine/alternator feet and the base frame.
Base frame design incorporates an integral fuel tank (Up to 750 kVA).
The generating set can be lifted or carefully pushed/pulled by the base frame.
Dial type fuel gauge and drain plug on the fuel tank.
Forklift pockets within base frame (up to 500 kVA).

**CANOPY**

- All canopy parts are designed with modular principles.
- Without welding assembly.
- Doors on each side.
- All metal canopy parts are painted by electrostatic polyester powder paint.
- Exhaust silencer is protected against environment influences.
- Thermally insulated engine exhaust system.
- Emergency stop push button is installed outside of the canopy.
- Easy lifting and moving.
- Easy maintenance and operation.
