Standby: Continuous running at variable load for duration of an emergency. No overload is permitted on these ratings. In accordance with ISO 3046.

Prime: Continuous running at variable load for unlimited periods with 10% overload available for 1 hour in any 12 hour period. In accordance with ISO 8528, ISO 3046.

- High quality, reliable and complete power unit
- Compact design
- Easy start and maintenance possibility
- Every generating set is subject to a comprehensive test program which includes full load testing, checking and provision of all control and safety shut down functions testing
- Fully engineered with a wide range of options and accessories: Canopy, sound proof canopy and on-road trailer

Manufacturer reserves the right to make changes in model, technical specifications, color, equipment and accessories without prior notice.

- Heavy duty Perkins diesel engine
- Four stroke, water cooled, turbocharged & intercooled
- Direct injection fuel system
- Electronic Governor system
- 12/24 V D.C. starter and charge alternator
- Replaceable fuel filter, oil filter and dry element air filter
- Cooling radiator and fan
- Starter battery (with lead acid) including Rack and Cables
- Flexible fuel connection hoses and manual oil sump drain valve
- Industrial capacity exhaust silencer and steel bellows
- Jacket water heater(at automatic models)
- Operation manuals and circuit diagram documents

### ALTERNATOR

</tbody>
</table>

- Brushless, single bearing system, flexible disc, 4 poles
- Insulation class H
- Standard degree of protection IP22 (*IP23 is available*)
- Self-exciting and self-regulating
- Impregnation with tropicalised epoxy varnish
- Solid state Automatic Voltage Regulator
- Stator winding with 2/3 pitch for improved harmonics
CONTROL SYSTEM

Control supervision and protection panel is mounted on the genset base frame. The control panel is equipped as follows:

1. Auto Mains Failure Control Panel
   - Panel equipments:
     ‣ Control with AMF module
     ‣ Static battery charger
     ‣ Emergency stop push button
   - a) Generating set control module DSE6120 features:
     ‣ The module is used to monitor main supply and starts and stops of a standby generating set
     ‣ Micro-processor based design
     ‣ Automatic control of main and generator contactors
     ‣ Monitors engine performance and AC power output LED alarm indication
     ‣ Front panel configuration of timers and alarm trip points
     ‣ 4 configurable analogue/digital inputs, 8 configurable digital inputs
     ‣ 6 configurable DC outputs
     ‣ Easy push button control

   - STOP/RESET - MANUAL - AUTO - TEST – START

   - b) Metering via LCD display:
     ‣ Generator Volts (L-L / L-N)
     ‣ Engine oil pressure (PSI-Bar)
     ‣ Engine temperature (°C & °F)
     ‣ Generator Frequency (Hz)
     ‣ Plant battery volts
     ‣ Engine hours run
     ‣ Mains Volts (Ph-Ph/Ph-N)

   - c) Alarms:
     ‣ Over and Under Speed
     ‣ Low and High Battery Volt.
     ‣ Start and Stop Failure
     ‣ Charge fail
     ‣ Over Current
     ‣ Under / Over Generator Voltage
     ‣ Low Oil Pressure
     ‣ Emergency stop
     ‣ High engine temperature

   - d) LED indications:
     ‣ Mains available
     ‣ Generator available
     ‣ Mains on load
     ‣ Generator on load

2. Power Outlet Terminal Board Mounted on the Gen-set Base Frame

OPTIONAL EQUIPMENTS

**Diesel Engine**
- Oil heater
- Alternator
  ‣ 3/4 Pole Output Circuit Breaker
  ‣ Anti-condensation Heater

**Panel**
- Charge ammeter
- Transfer Switch 3Pole
- Transfer Switch 4 Pole
- Earth Fault, single set

**Accessories**
- Bulk fuel tank
- Automatic filling system
- Fuel-water separator filter
- Low fuel level alarm
- Residential silencer
- Enclosure or sound proof canopy
- Trailer
- Manual oil drain pump
- Tool kit for maintenance
CHASSIS

- The complete gen-set is mounted as whole on a heavy-duty fabricated, steel base frame
- Anti-vibration pads are fixed between the engine/alternator feet and the base frame
- Base frame design incorporates an integral fuel tank (Up to 750 kVA)
- The generating set can be lifted or carefully pushed/pulled by the base frame
- Dial type fuel gauge and drain plug on the fuel tank
- Forklift pockets within base frame (up to 500 kVA)

CANOPY

- All canopy parts are designed with modular principles
- Without welding assembly
- Doors on each side
- All metal canopy parts are painted by electrostatic polyester powder paint
- Exhaust silencer is protected against environment influences
- Thermally insulated engine exhaust system
- Emergency stop push button is installed outside of the canopy
- Easy lifting and moving
- Easy maintenance and operation
