APD17A

17 kVA / 13.6 kW
POWERED by AKSA

DIESEL GENERATING SET  400/230 V - 50 Hz

Standby: Continuous running at variable load for duration of an emergency. No overload is permitted on these ratings. In accordance with ISO 3046.

Prime: Continuous running at variable load for unlimited periods with 10% overload available for 1 hour in any 12 hour period. In accordance with ISO 8528, ISO 3046.

- High quality, reliable and complete power unit
- Compact design
- Easy start and maintenance possibility
- Every generating set is subject to a comprehensive test program which includes full load testing, checking and provision of all control and safety shut down functions testing
- Fully engineered with a wide range of options and accessories: Canopy, sound proof canopy and on-road trailer

Manufacturer reserves the right to make changes in model, technical specifications, color, equipment and accessories without prior notice.

- Heavy duty Aksa diesel engine
- Four stroke, water cooled, Natural
- Direct injection fuel system
- Mechanical Governor system
- 12/24 V D.C. starter and charge alternator
- Replaceable fuel filter, oil filter and dry element air filter
- Cooling radiator and fan
- Starter battery (with lead acid) including Rack and Cables
- Flexible fuel connection hoses and manual oil sump drain valve
- Industrial capacity exhaust silencer and steel bellows
- Jacket water heater(at automatic models)
- Operation manuals and circuit diagram documents

</table>

- Brushless, single bearing system, flexible disc, 4 poles
- Insulation class H
- Standard degree of protection IP21 (*IP22/IP23 is available.*)
- Self-exciting and self-regulating
- Impregnation with tropicalised epoxy varnish
- Solid state Automatic Voltage Regulator
- Stator winding with 2/3 pitch for improved harmonics
CONTROL SYSTEM

Control supervision and protection panel is mounted on the genset base frame. The control panel is equipped as follows:

1. Auto Mains Failure Control Panel
   Panel equipments:
   - Control with AMF module
   - Static battery charger
   - Emergency stop push button
   a) Generating set control module DSE6120 features:
       - The module is used to monitor main supply and starts and stops of a standby generating set
       - Micro-processor based design
       - Automatic control of main and generator contactors
       - Monitors engine performance and AC power output LED alarm indication
       - Front panel configuration of timers and alarm trip points
       - 4 configurable analogue/digital inputs, 8 configurable digital inputs
       - 6 configurable DC outputs
       - Easy push button control
       - STOP/RESET - MANUAL - AUTO - TEST – START
   b) Metering via LCD display:
       - Generator Volts (L-L / L-N)  Generator kVA
       - Engine oil pressure (PSI-Bar)  Generator kW
       - Generator Ampere (L1,L2,L3)  Generator Cos (σ)
       - Engine temperature (°C & °F)
       - Generator Frequency (Hz)
       - Plant battery volts
       - Engine hours run
       - Mains Volts (Ph-Ph/Ph-N)
   c) Alarms:
       - Over and Under Speed
       - Low and High Battery Volt.
       - Start and Stop Failure
       - Charge fail
       - Over Current
       - Under / Over Generator Voltage
       - Low Oil Pressure
       - Emergency stop
       - High engine temperature
   d) LED indications
       - Mains available
       - Generator available
       - Mains on load
       - Generator on load

2. Power Outlet Terminal Board Mounted on the Gen-set Base Frame

OPTIONAL EQUIPMENTS

Diesel Engine
- Oil heater
Altrenator
- 3/4 Pole Output Circuit Breaker
- Anti-condensation Heater

Panel
- Charge ammeter
- Transfer Switch 3Pole
- Transfer Switch 4 Pole
- Earth Fault single set

Accessories
- Bulk fuel tank
- Automatic filling system
- Fuel-water separator filter
- Low fuel level alarm
- Residential silencer
- Enclosure or sound proof canopy
- Trailer
- Manual oil drain pump
- Tool kit for maintenance
The complete gen-set is mounted as whole on a heavy-duty fabricated, steel base frame.

- Anti-vibration pads are fixed between the engine/alternator feet and the base frame.
- Base frame design incorporates an integral fuel tank (Up to 750 kVA).
- The generating set can be lifted or carefully pushed/pulled by the base frame.
- Dial type fuel gauge and drain plug on the fuel tank.
- Forklift pockets within base frame (up to 500kVA).

**CANOPY**

- All canopy parts are designed with modular principles.
- Without welding assembly.
- Doors on each side.
- All metal canopy parts are painted by electrostatic polyester powder paint.
- Exhaust silencer is protected against environment influences.
- Thermally insulated engine exhaust system.
- Emergency stop push button is installed outside of the canopy.
- Easy lifting and moving.
- Easy maintenance and operation.
